*“I really like Expat Chinese’s teaching method. I also enjoy taking multiple, different classes with her. It helps to give me a more diverse view on the Chinese language because this way I not only study the grammar and vocabulary but also the history of the characters.”*

*“It was a good start to learn Chinese. The teacher is always happy to share her experience, which was very useful.”*

*“I was SO happy with how well the teacher understands our challenges as foreigners coming from a very different linguistic background.”*

*“Everything we learned could be applied to our daily lives. It was very interactive, and the expectations were realistic.”*

**Each semester we will improve our courses according to students’ feedback!**

We gather feedback in the middle and in the end of our courses and encourage students to give us feedback at any time they wish. Top quality of our lessons is our number one goal at Expat Chinese.
